I am sending this e-mail, concerning the impact of new houses and flats on the old co-op site. My main issue is the parking with not enough spaces for the residents and friends, this will overflow to near by roads like Chatsworth, coupled with the school run would cause an accident just waiting to happen. I feel co-op have dragged their feet for so long knowing after so many years they can apply for a domestic application instead of what it was intended for. Thank you for listening.
