Core Strategies 5.26 table 2	<b>I do not understand why “cheap car parking” is listed alongside walking/cycling routes and public transport. This would encourage more driving therefore more air pollution</b>
Green Corridors	<p><b>I can only see arrows pointing towards parks/green areas. These are however not interconnected with each other. There is no coherent walking or cycling route. Especially problematic is the area around the roundabout near St Peters Church. A route from the waterfront/ river towpath is cut up by the gyratory.</b></p> <p><b>The river towpath is too narrow to cycle on and its surface keeps deteriorating. Is there any plan improving the towpath? More usage of it would also make people more confident using it.</b></p> <p><b>The river path needs to be connected with the waterfront area. Currently driving is still allowed there. It is an area around the university and various cafes and restaurants. Passing traffic also poses danger to children</b></p>
