Document(s) and document part.	Comment(s) (expand the boxes if necessary and please ensure your name is included on any additional sheets.)
	<p>Extensive modal shift is required in Ipswich to improve air quality and reduce carbon emissions but also to reduce the impacts of traffic from new developments.</p> <p>Suffolk County Council modelling indicates just over 15% modal shift is required in Ipswich by 2026 (as well as Junction Improvements etc to the existing network) yet sustainable travel options in Ipswich are poor and need considerable investment. There is insufficient evidence that the required funding to deliver the required improvements is available.</p> <p>The Local Plan is unsound because there are insufficient actions and investment proposed to improve air quality and to deliver the required levels of modal shift.</p> <p>Given the high levels of modal shift required but the the cycling network is so poor people will not want to cycle and there is lack of cycle training to help people feel confident and safe.</p>
